

Miraloma Educational Enrichment Program

SUMMER DAY CAMP

Dates and Themes

____ June 14-18: **Art: Where to Begin?**

Description: Campers will learn about the elements and principles of art: lines, shapes, color, etc and how we put them all together! Campers will also engage in Team Building activities that help with communication and team work.

____ June 21-25: **Science: Plugging into the Sun!**

Description: Campers will learn the importance of saving the environment. They will be working in teams to come up with ideas how to build cities that can save energy and help the global environment. Campers will also work together to build model buildings, schools, and homes to be energy efficient! Campers will also engage in Team Building activities that help with communication and team work.

____ June 28-July 2 **Art: Animal Mania!**

Description: Campers will do a variety of art projects that all relate to animals. Campers will also engage in Team Building activities that help with communication and team work.

____ July 5-9 **Science: Space the Final Frontier!**

Description: Campers will learn about our solar system and beyond. Our campers will also come up with creative ways to travel to these distant planets. Campers will also engage in Team Building activities that help with communication and team work.

____ July 12-16 **Art: Multicultural Art**

Description: Campers will learn about different cultures and their artistic expressions. Campers will also engage in Team Building activities that help with communication and team work.

____ July 19-23 **Science: Call of the Wild!**

Description: Campers will learn about land and ocean animals. The campers will understand about the animals habitats and in what geographical areas they thrive. Campers will also engage in Team Building activities that help with communication and team work.

____ July 26-30 **Art: Hodge Podge**

Description: A little bit of every kind of art! Campers will also engage in Team Building activities that help with communication and team work.

Fieldtrips:

Every week we will be taking a fieldtrip. Throughout the summer, we will be visiting places such as the De Young Museum, the San Francisco Zoo, going to a Giants game, and much more!
